

REMARKS

Applicant provisionally elects with traverse species articulated as species "A" in the office action. As understood, it is presently believed at least claims 1-5, 6-25, 54-57, and 64-66 read on species "A".

This provisional election is without prejudice to pursue additional claims, including non-elected claims, in the present application, as generic claims have been indicated to exist in the application.

Accompanying this response are minor revisions to the claims, as requested by the Examiner. These revisions are made solely to clarify dependency of certain dependent claims and to correct obvious inadvertent grammatical or typographical errors.

It is respectfully that all matters raised in the office action have been addressed and/or remedied and that no further response is required. It is not believed any extension or fees are required for entry of this response. However, if any have been inadvertently overlooked, please consider this a request to charge any required fee to Deposit Account No. 26-0084.

No fees or extensions of time are believed to be due in connection with this amendment; however, consider this a request for any extension inadvertently omitted, and charge any additional fees to Deposit Account No. 26-0084.

Reconsideration and allowance is respectfully requested.

Respectfully submitted,
